

## General : 3 change(s)

### Bug Fix : 3 change(s)

#### **Diary: Patient Dashboard - Fix Error When Pills Path Does Not Exist**

Dev Ref: 41769

Related Issue: No Issue

Addressed the issue where an error occurred when the pills path did not exist.

#### **Diary: Patient Dashboard - Make Graph name an optional field on Add/Edit screen**

Dev Ref: 41766

Related Issue: No Issue

Addressed the issue where the system incorrectly required the name field, ensuring it now functions properly even when the field is left empty.

#### **Diary: Theatre Manager - Error When Viewing Operations Without Linked Debtor During Load**

Dev Ref: 41770

Related Issue: No Issue

Addressed the issue where an error occurred when viewing operations without a linked debtor during load.

## Hospital : 1 change(s)

### Bug Fix : 1 change(s)

#### **GXWeb: Hospital - Invoicing non-chargeable items still charges an amount in the GXWeb application**

Dev Ref: 41775

Related Issue: 766145

Addressed the issue where stock set up as "Non-chargeable" still posted a value on GxWeb.
