

Release Notes

Web Version: 1.19.13

Goeie dag vanaf die myGC span

Wees asseblief bewus dat vanaf GXWeb weergawe 1.19.13 skuif die Online Presence vanaf die dagboek settings na die Configuration settings.

(Kan gevind word op die GXWeb Wiel)

Ons gaan ook vanaf weergawe 1.19.13 n nota onder die dagboek settings los om vir die gebruiker aan te dui dat die Online Presence geskuif het na Configuration settings toe.

Vriendelike Groete

Good day from the myGC team

Please take note that from GXWeb version 1.19.13 the Online Presence will move from diary settings to the Configuration settings.

(Which can be found on the GXWeb wheel)

We will also add a disclaimer from version 1.19.13 at the bottom of the diary settings to indicate to users that the "Online Presence" has moved to the Configuration settings.

Kind Regards

Release Notes

Web Version: 1.19.13

Diary: Deleted Bookings - Filter to be switched off by default

Dev Ref: 42747

Related Issue: 929301

Functionality has been enhanced within the Diary search tool to ensure that the "Deleted Bookings" filter is now switched off by default.

Diary: Sidebar - Request to remove WhatsApp communication buttons if service is not active

Dev Ref: 43775

Related Issue: No Issue

Removed WhatsApp communication buttons when the service is not active.

For more details, please visit our learning centre:

Link: <https://learning.goodx.co.za/mod/page/view.php?id=6380> How to Send A WhatsApp

Stock: Stock Correction - Exclude inactive warehouses from filter dropdowns & improve sorting

Dev Ref: 43645

Related Issue: No Issue

Optimised warehouse management by excluding inactive warehouses from filter dropdowns. Additionally, sorting logic has been improved to ensure active warehouses are easier to locate and select.

Stock: Stock Take - Handle unlinked stock items - Capture or Accept Variances

Dev Ref: 44013

Related Issue: No Issue

New functionality has been added to handle unlinked stock items by allowing users to capture or accept variances.

For more details, please visit our learning centre:

Tasks: Create Task - Added to Diary, Clinical Case, and Patient File sidebars

Dev Ref: 32559

Related Issue: No Issue

Enhanced the task management system to allow for task creation directly from the sidebars of the Diary, Clinical Case, and Patient File screens. This update improves the efficiency of the administrative process, making sure that tasks can be assigned and managed without interrupting the clinical workflow.

For more details, please visit our learning centre:

General : 43 change(s)

Bug Fix : 27 change(s)

Communication: Admin Event History - Page navigation not working as expected

Dev Ref: 44078

Related Issue: No Issue

Addressed the issue on the Admin Events History screen where the page navigation was obstructed when viewing a large set of entries.

Communication: CRM - Replace inactive codes with names on Recall Report

Dev Ref: 39643

Related Issue: 860883

Addressed the issue where the "Inactive Reason Description" column on the Recall Report would only show the inactive reason id and not the full description.

Communication: ERA Management - Red and orange colors not displaying on ERAs when amounts differ

Dev Ref: 39999

Related Issue: 893326, 867502, 867502, 902956, 896409

Addressed the issue where red and orange indicators did not display on ERAs when amounts differed.

Communications: PDF Referral issue

Dev Ref: 44338

Related Issue: No Issue

Addressed the issue where referral links sent from GXC did not correctly open under the communications field on GxWeb, resulting in an error.

Communications: Task List view - Task Workflow Event Types filter not functioning

Dev Ref: 44271

Related Issue: No Issue

Addressed the issue where the Task Workflow Event Types filter did not function correctly on the task list screen.

Configuration: Profile Setup - Corrected the "Delete" icon hover description

Dev Ref: 44147

Related Issue: No Issue

Addressed the issue where the tooltip description on the Delete icon within the Profile Setup screen displayed incorrectly.

Configuration: Smart Stickers - Fix Smart Sticker toast notifications

Dev Ref: 44026

Related Issue: No Issue

Addressed the issue with Smart Sticker toast notifications.

Configuration: User Management - Screen not displaying list of users after refresh

Dev Ref: 39745

Related Issue: 860779

Addressed the issue where the User Management screen did not refresh the list of users.

Debtor: Clinical - Fix Audio Transcription on Clinical Screen

Dev Ref: 43710

Related Issue: No Issue

Addressed the issue where audio transcription on the Clinical screen was not functioning as expected.

Debtors: Clinical Event - PDF Printover failing to display selected checkbox values on printout

Dev Ref: 40868

Related Issue: 898864

Addressed the issue where data from selected checkboxes was not saving correctly during the PDF Printover process. Clinical forms will now correctly reflect all user selections, making sure the printed output matches the information entered on the screen.

Debtors & Diary: Email - Default cursor field on Email

Dev Ref: 44319

Related Issue: No Issue

Addressed the issue where the default cursor position on an email was on the bcc field instead of the subject field.

Debtors & Diary: Patient Dashboard - Profiles cut off if too many displayed

Dev Ref: 44526

Related Issue: No Issue

Addressed the issue within the Debtors and Diary modules where the Patient Dashboard would "cut off" profile information when a large number of records were displayed simultaneously.

Debtors: Invoice - Order assistants alphabetically and do not show inactive ones

Dev Ref: 40229

Related Issue: No Issue

Addressed the issue where users would struggle to find the correct assistant to load on an invoice. The following changes have now been made to assist the user:

- The user can now search for an assistant.
- Inactive assistants are greyed out and cannot be selected.

Diary: Booking screen - Issues filtering Smart Stickers

Dev Ref: 44125

Related Issue: No Issue

Addressed issues when filtering Smart Stickers on the booking screen.

Diary: Bookings - Custom/Consent form send failure

Dev Ref: 44404

Related Issue: No Issue

Addressed the issue where an error occurred when sending a Custom or Consent form from the Booking screen.

Diary: Booking - Unable to book non-existing patients when doctor validation settings enabled

Dev Ref: 42723

Related Issue: No Issue

Addressed the issue that prevented new patients from being booked when specific doctor validation settings were enabled.

Diary: Clinical - Eye Eval 2 & Exam WFE - Event opening errors and number input validation issues

Dev Ref: 44238

Related Issue: No Issue

Addressed the issue where errors occurred when opening an event and number inputs were not functioning correctly.

Diary: Clinical - Sick note date field issue if sick note is created from EMR

Dev Ref: 44237

Related Issue: 937821

Addressed the issue where the sick note date fields were disabled, preventing users from typing or selecting a date when creating a sick note from EMR.

Diary & Debtor Screen: Broken and styling issue on the Delete button

Dev Ref: 44272

Related Issue: No Issue

Addressed the issue where the delete button on the Diary and Debtor screens was broken and misstyled.

Diary: Invoice - Access View Response from Switch history changes Service Centre

Dev Ref: 43555

Related Issue: 454871

Addressed the issue where accessing View Response from Switch History changed the Service Centre.

Diary: Theatre Management - Deleting an operation does not delete the auto-booking

Dev Ref: 40515

Related Issue: 892051

Resolved the issue where deleting an operation did not remove the associated auto-booking.

Diary: Theatre Manager - Column headers & buttons not displaying correctly

Dev Ref: 43562

Related Issue: No Issue

Resolved layout issues on the Theatre Manager screen to ensure all columns align correctly with their headers and action buttons are properly positioned.

Fields Accordion: Prevent the accordion from closing on Deselect All

Dev Ref: 44118

Related Issue: No Issue

Addressed the issue where the Fields accordion closed automatically when Deselect All was used.

Reports: Dashboard - Practice Overview Report figures showing as 'NaN'

Dev Ref: 40989

Related Issue: 904882

Addressed the issue where the Practice Overview Report figures showed as 'NaN'.

Reports: Debtor Drilldown Report - Assistant Report data does not match operational details

Dev Ref: 36444

Related Issue: 771305, 821788, 791607, 768350

Addressed the issue where the Assistant report included referring doctors who were not relevant and did not appear in the Operation Detail.

Settings: Entity Setup - Unable to create users

Dev Ref: 44564

Related Issue: No Issue

Addressed the issue where the user would receive an error when trying to create a new user.

Stock: Stock Correction - Improve sorting on Adjustment Codes screen

Dev Ref: 44089

Related Issue: No Issue

Addressed the issue where Adjustment Code dropdowns were not sorted alphabetically.

Development : 2 change(s)

Debtors: Invoice - Estimate name input field length improvements

Dev Ref: 43364

Related Issue: No Issue

Improved the Invoice screen to better handle longer text by extending the Estimate name input. Adjustments were also made to spacing around the existing checkbox near the Estimate field to ensure the interface is easier to read and click.

Settings: Diary Settings - Add a notice to inform users that Online Presence has been moved

Dev Ref: 44539

Related Issue: No Issue

Added a notice in Diary Settings to inform users that Online Presence settings have moved to the Configuration tab.

New Feature : 6 change(s)

Release Notes

Web Version: 1.19.13

Clinical Events: External image upload - Add a Cloud Capture QR code to Web App

Dev Ref: 35800

Related Issue: No Issue

Add Home app link to About page for easy reference.

Add QR code on external image upload screen to open Cloud Capture app easily.

Debtors: Invoice - Improve warning indicator for BMI modifier when BMI does not correspond

Dev Ref: 39637

Related Issue: 843053

Enhanced the invoicing workflow with improved visual indicators and automated cleanup for BMI-related modifiers. Users will now see a clear, red alert when a BMI value does not correspond with the selected modifier, and the system will automatically clear the inapplicable code if the user chooses not to proceed, saving the user from having to manually delete the invalid entry.

GoodX Sub-Apps: Create a Sub-Application screen

Dev Ref: 43887

Related Issue: No Issue

New functionality has been added to allow users to easily generate, manage, and access GoodX Sub-Applications in one place.

For more details, please visit our learning centre:

<https://learning.goodx.co.za/mod/page/view.php?id=6412>

New Administration segment to enable practices to manage Compliance

Dev Ref: 44518

Related Issue: No Issue

A new Administration segment has been added to the Navigation wheel that will allow users/practices to manage their Compliance. More information and details to follow in the next GoodXWeb 1.19 versions.

Sub-App: Maintenance for Sub-App links

Dev Ref: 44209

Related Issue: No Issue

New functionality has been added that allows users to easily access the Learning Centre's home page link directly from the About page for quick reference.

Additionally, a QR code has been added to the external image upload screen to make it easier to open the Cloud Capture app.

For more details, please visit our learning centre:

<http://learning.goodx.co.za/mod/page/view.php?id=4589>

Sub Apps: Default home site for invalid Sub-App links

Dev Ref: 43888

Related Issue: No Issue

New functionality has been added so that when users access an invalid or broken sub-app link, they are automatically redirected to the default home page. This ensures a seamless experience and prevents dead-end error pages.

Remove Discontinued : 1 change(s)

Debtor: SMS - Removal of the "Send Now" checkbox feature

Dev Ref: 43186

Related Issue: 901092

Removed the "Send Now" checkbox option from the SMS screen.

Request : 7 change(s)

Configuration: Online Presence - Online Presence settings move to configuration screen

Dev Ref: 43813

Related Issue: No Issue

The Online Presence settings have moved from the Diary Settings menu to the Configurations module.

Redirect Guidance: If the user navigates to the old location in Diary Settings, the user will now see a helpful notification:

"These settings have been moved! Please click the navigation wheel >'Configuration' >'Online Presence'."

Debtor: Clinical Event - Changed wording for the Lock confirmation modal (lock window)

Dev Ref: 44253

Related Issue: No Issue

Changed the wording on the lock confirmation modal (lock window). The message now reads as follows:

"This action will permanently lock the form for all users, making it impossible to edit again. Any further changes will require creating and editing a new copy of this form.

Support staff will not be able to unlock the form once it has been locked."

Debtor: Patients List - Add ability to search per DOB for patient

Dev Ref: 44279

Related Issue: 949249

Added the ability to search on the patients' date of birth from the Patient List screen.

Debtors & Diary: Validation/Benefit Check - Validations to display Medical Aid Option and extra information

Dev Ref: 33623

Related Issue: 692567

Updated the validation modal to include the Medical Aid Option and optimized the layout for a more intuitive user experience.

Debtors: Transaction Batches - Screen to open sorted in descending order based on UID of batch

Dev Ref: 44191

Related Issue: No Issue

The Transaction Batches screen will now open by default sorted in descending order based on the UID.

Diary: Theatre Booking - Show smart stickers in sidebar for theatre bookings

Dev Ref: 39685

Related Issue: No Issue

Functionality has been adjusted to enable Smart Stickers on the Theatre Bookings sidebar to provide better visibility and organization of scheduled operations.

For more details, please visit our learning centre:

Link: <https://learning.goodx.co.za/mod/page/view.php?id=4175> The Periodontal Chart

Settings: Workflow Event Template - Enable Questionnaire on Consent form

Dev Ref: 41303

Related Issue: No Issue

Enhanced Consent Forms now include a questionnaire feature, allowing users to easily add additional questions to their forms.

Hospital : 2 change(s)

Development : 1 change(s)

Hospital: Hospital Cases - Finalise case with Final invoice

Dev Ref: 42716

Related Issue: 901787

New functionality has been added to validate cases on finalisation, ensuring correct invoice amounts based on approved rates.

For more details, please visit our learning centre:

Request : 1 change(s)

Hospital: Case Manager - Delete theatre session on case

Dev Ref: 36865

Related Issue: No Issue

A new delete button has been added to the Theatre Sessions screen on a hospital case. This function will enable a user to remove a session, provided the case has not yet been finalised.

For more details, please visit our learning centre:

<https://learning.goodx.co.za/mod/page/view.php?id=5900> Case Screen: Navigating the Theatre Sessions Tab
