

Dental : 1 change(s)

Bug Fix : 1 change(s)

Dental: Periodontal Chart - Unable to save Periodontal chart when values fields are empty

Dev Ref: 45126

Related Issue: No Issue

Addressed the issue in the Dental Module that prevented users from saving Periodontal charts when certain value fields were left empty.

Development : 6 change(s)

Remove Discontinued : 1 change(s)

Custom: Dropdown - Remove old Case Management screen from Web

Dev Ref: 44278

Related Issue: No Issue

Removed the old Case Management screen from the Custom section on the Web application.

Request : 5 change(s)

Configuration: WFE Config - Enable diary selection and date field should display empty on template

Dev Ref: 45020

Related Issue: No Issue

Functionality has been enhanced to enable Diary selection and ensure the Date field displays as empty on the WFE templates.

Configuration: WFE Configuration - Remove Diagnosis from fields dropdown

Dev Ref: 44680

Related Issue: No Issue

Functionality has been adjusted to remove the Diagnosis option from the Fields dropdown on the Add/Edit Workflow Event Template screen.

Debtor: Invoice - Batch Tracking for Dispensing - Batch sorting by Expiry and Expired stock restrictions

Dev Ref: 40934

Related Issue: No Issue

Dispensing functionality now defaults to sorting batches by expiry date (earliest first). Expired batches are now highlighted in orange and disabled for selection to prevent errors. Additionally, expired batches with zero quantity have been removed from the selection list for better clarity.

Diary: Clinical - Auto-apply mandatory code 0146 for IOD first visits (0190-0192)

Dev Ref: 44186

Related Issue: No Issue

Functionality has been enhanced to streamline IOD billing: selecting first-visit codes (0190, 0191, or 0192) will now automatically add the mandatory 0146 code to the billing section. Please note this applies to all IOD schemes except FEMA.

Diary:Theatre Manager - Display surgeon's name on theatre manager when in hospital mode & fix average time round

Dev Ref: 44733

Related Issue: No Issue

Functionality has been adjusted to show the surgeon's name in hospital mode and correct average turnaround time.

General : 12 change(s)

Bug Fix : 9 change(s)

Communication: Tasks columns(statuses) disabled in settings still showing active in Task window

Dev Ref: 45079

Related Issue: No Issue

Addressed the issue where disabled task statuses still displayed as active.

Debtor: Clinical - Data in Allergies recording not rendering correctly on EMR WFE

Dev Ref: 44165

Related Issue: No Issue

Addressed the issue where recorded allergy data was not displaying correctly within the EMR WFE. All allergy information should now render accurately for clinicians.

Debtor: Debtor Edit - Medical Aid field fails to auto-populate on re-entry

Dev Ref: 44696

Related Issue: No Issue

Addressed the issue where the Medical Aid field on the Debtor Edit screen failed to auto-populate upon re-entry.

Diary: Booking - Unable to view or change patient photo from the diary

Dev Ref: 44727

Related Issue: 976013

Addressed the issue where users were unable to view or update a patient's photo on the diary's sidebar.

Diary: Clinical - Buttons non-responsive on PDF printover form

Dev Ref: 45006

Related Issue: No Issue

Addressed the issue where buttons were not responding on the PDF printover form.

Diary: Clinical - Restore bullet point functionality on Report WFE print

Dev Ref: 45010

Related Issue: No Issue

Restored the bullet point functionality on the Report WFE print.

Reports: Drilldown - Financial periods do not filter correctly

Dev Ref: 44562

Related Issue: No Issue

Addressed the issue where drilldown reports failed to filter data accurately according to the selected financial periods.

Reports: Reports - Incorrect dates display while loading Drilldown reports

Dev Ref: 44726

Related Issue: No Issue

Addressed the issue where Drilldown reports displayed incorrect dates upon loading.

Settings: Entity Settings - Unable to create users

Dev Ref: 44509

Related Issue: 969777

Addressed the issue where new users could not be created.

New Feature : 1 change(s)

Settings: Entity Setup - Added new Entity Superuser

Dev Ref: 45155

Related Issue: No Issue

A new 'entity_superuser' privilege has been introduced and linked to the built-in Administrator role. This update ensures that users with the Administrator role have the full authority and scoped permissions originally intended for their specific entity. Remove Discontinued : 1 change(s)

Creditors: Stock invoice - Prevent inactive warehouse selection on Stock invoices

Dev Ref: 44690

Related Issue: No Issue

Users can no longer select inactive warehouses when processing stock purchases in the Creditors module.

Request : 1 change(s)

Debtor: Clinical - Patient data not rendering correctly on EMR WFE

Dev Ref: 44600

Related Issue: No Issue

Functionality has been enhanced to update the Allergies section within the EMR Nurse and Doctor triage views.

GxPrices : 1 change(s)

Bug Fix : 1 change(s)

GXPrices: Modifiers - Modifier 0009 not calculating accurately on WebApp

Dev Ref: 45084

Related Issue: 981231, 978445

Addressed the calculation errors related to minimum values allocated to assistants in the web app.

Hospital : 3 change(s)

Bug Fix : 2 change(s)

Hospital: Case Management - Different case number pops up when you try to submit a claim for Case

Dev Ref: 45002

Related Issue: No Issue

Addressed the issue where an incorrect case number appeared when submitting a claim for a case.

Hospital: Clinical Event - Placeholder Case ID issue

Dev Ref: 45119

Related Issue: No Issue

Addressed the issue where the placeholder for Case ID did not function thus the case number did not display on any workflow events.

Request : 1 change(s)

Diary: Booking - Show the correct case for a booking and operation

Dev Ref: 44623

Related Issue: No Issue

Functionality has been adjusted to display the correct case for a booking and operation.

Release Notes

Web Version: 1.19.15

Reports : 1 change(s)

Request : 1 change(s)

Reporting App: Add Advanced Reports button to Web list screens

Dev Ref: 40954

Related Issue: No Issue

Functionality has been added to include an Advanced Reports button on the Web list screens, allowing users to access enhanced reporting options directly from the interface.
