## Release Notes

Release Version : myGC\_2.37

---

### Development : 3 change(s)

#### mygc : 14 change(s)

##### Telemed call: Improve the Telemed lobby screen

*Dev Ref: 41727*

Functionality has been enhanced to make the Telemed call lobby screen clearer and easier to use while you wait for your virtual appointment.

For more details, please visit our learning centre:

<http://learning.goodx.co.za/mod/page/view.php?id=4998>

### Request : 6 change(s)

##### Updates: Display update notification popup

*Dev Ref: 43505*

Added a notification popup in myGC that informs users whenever a new version of the application is available.

##### Booking: Enable send booking details to Kiosk from a requisition

*Dev Ref: 43181*

Added the ability to send booking details from a requisition directly to the kiosk. This improves efficiency by allowing staff to quickly transfer patient information from the request form to the kiosk without re-entering data.

##### Google Auto Address: Update autocomplete and improve efficiency

*Dev Ref: 43279*

Updated the Google Auto Address feature to improve autocomplete and overall efficiency.

##### Health: Clinical Documents - Link and view Pathology reports on myGC

*Dev Ref: 43182*

New functionality has been added so that users can now view Pathology reports directly in myGC, automatically linking these important documents to their health record.

For more details, please visit our learning centre:

<https://learning.goodx.co.za/mod/page/view.php?id=6385>

##### Multiple screens: Update myGC imagery to Patch Mascot

*Dev Ref: 41762*

Updated myGC images across multiple screens to feature Patch, the official myGC mascot.

##### Payment: Payment link SMS not to be sent when payment links are inactive

*Dev Ref: 43312*

Payment link notification SMS will no longer be sent when the links are deactivated.
