Release Notes

Release Version : myGC_2.40

General : 4 change(s)

Bug Fix : 2 change(s)

Telemed: Calls - Freezing issue

Dev Ref: 43895

Addressed an issue where Telemed calls would freeze or disconnect on the patient side during longer sessions.

External Bookings: External entity map link fails to load

Dev Ref: 43713

Addressed the issue where the external entity map link was not loading. Additionally, the mobile map view has been updated to display the 'More Options' button as an icon only.

Development : 1 change(s)

Payment: Add public image for payment request

Dev Ref: 44180

A feature enhancement has been completed to block duplicate payment requests sent within two hours of each other.

New Feature : 1 change(s)

Payment Link: WhatsApp payment setup

Dev Ref: 43933

WhatsApp Payment Links have been enabled, allowing users to share payment links directly via WhatsApp for a faster and more convenient checkout experience.

Release Notes

Release Version : myGC_2.40

mygc : 12 change(s)

Bug Fix : 9 change(s)

Confirmation Booking: Confirm Booking button not fixed on mobile view

Dev Ref: 43864

Addressed an issue where the `Confirm Booking` button did not remain fixed on mobile view. The mobile view has been updated to ensure the button remains anchored to the bottom of the screen, preventing it from being missed or hidden during the final booking step.

External Booking: Improved timeslot loading reliability

Dev Ref: 43714

Addressed the issue where timeslot data from external diaries would not always load on the first attempt. A retry has been added to the backend to help fetch the data consistently if the initial request fails.

External Bookings: Terms and Conditions - Missing validation message

Dev Ref: 44081

Addressed the issue where the system did not provide a validation message to guide the user when they try to proceed without accepting Terms and Conditions.

Health: Consent Forms - PDF download issue

Dev Ref: 44122

Addressed the issue where patients could not download their Consent Form. PDFs now process correctly so they can be saved and viewed without any issues.

Medical History Request: Saved data not displaying in completed sections

Dev Ref: 43858

Addressed the issue where saved information in the Medical History Request would occasionally fail to appear. All completed sections now correctly display saved data when navigating through the form or refresh the page.

Version Update: Dialogue box display fix

Dev Ref: 43706

Addressed the issue where the myGC version update pop-up did not display properly. The dialogue box now triggers correctly whenever a new version is released.

Bookings: Final booking Screen - Missing footnote text

Dev Ref: 44359

Addressed an issue where the technical placeholder `booking_footnote` was displayed at the base of the appointment confirmation screen instead of the intended instructional text or disclaimer.

Bookings: Improved timezone conversion and visibility

Dev Ref: 44084

Addressed the issue where timezone details appeared inconsistent during the booking process. A warning has been added to the final screens to show the doctor's local timezone, making the appointment time clear for patients in different regions.

Release Notes

Release Version : myGC_2.40

Bug Fix : 9 change(s)

mygc : 12 change(s)

Clinical Documents: Referral Letter - Referral letters do not sync from GXWeb to myGC

Dev Ref: 44107

Addressed the issue where referral letters were not successfully syncing from GXWeb to myGC..

Request : 3 change(s)

My Account: Medical Aid details - Display Insurance instead of Medical Aid for UK users

Dev Ref: 43857

A request has been completed to display `Insurance` instead of `Medical Aid` for United Kingdom users on account screens.

Login: Password Reset - Add follow-up confirmation notification via Email and SMS

Dev Ref: 44211

Functionality has been adjusted to send a follow-up confirmation notification via Email and SMS after a password reset, ensuring users are informed of successful changes.

Bookings: Allow booking without myGC user account

Dev Ref: 43563

New functionality has been added to allow bookings to be made without a myGC user account.
