General : 4 change(s)

Bug Fix : 2 change(s)

Configuration: Online Presence - Authentication popup will no longer display for the kiosk when the setting is disabled

Dev Ref: 45046

Addressed the issue where the authentication pop-up continued to display for the kiosk even when the setting was disabled within the Online Presence configuration.

Bookings: Email validation incorrectly preventing online booking confirmation

Dev Ref: 45489

Support Ref #: 994499

Addressed an issue where the email address field was not marked as required during online booking for existing accounts, but still prevented the booking from being confirmed unless completed.

The system now correctly allows bookings without an email address when adding a new patient to an existing account, while still enforcing the email requirement for new registrations and bookings made without an account.

Development : 1 change(s)

Doctor Reviews: Implement patient reviews and a doctor dashboard to view submitted reviews

Dev Ref: 45196

Functionality has been updated to include a Doctor Review system and a dedicated Review Dashboard on GXWeb. Patients can now submit feedback with privacy settings while practices can manage, filter and respond to reviews directly through the dashboard.
